Loki Is A Hindu God

The ancient Nath Siddha's in India were followers of Shiva and had nine mystical founders who are stated to relate to the chakra's. Eight of them in the eight directions so the 13 major chakra's. And the last being the bindu point which relates to the seat of the soul. Which is the seat of Atman which is called Shiva. Who has been stated to be the Adinath [The First Lord] or Adi Yogi the name of Shiva.

At one of their major temples:

"Located in the monastery precincts at Kadri is a certain Manjunatha temple, whose principal image, of Lokanatha, was dedicated in A.D 968. In the inscription that records that dedication, it is stated that "the image of the god Lokisvara [was placed] in the beautiful vihara of Kadirka."...[1]

Lokesvara is stated to be three faced. The ancient image of Shiva in the east. Lokesvara is a name of Shiva. Svava means "god" Lokesvara is the God Loke....Loki the E is spoken phonetically as I in Sanskrit. Just as in the west Loki is shown as relating to the serpent power the three faces on the head is the three nadis united in the brain with the raising of this energy. Lak is the Shakti the energy or consort of Rudra in the Vedic period. Rudra is the Vedic name of Shiva. Lak is the rune or energy of Loki in the west. Lak is also spelled Lake or Laki this also becomes Loki. The letter L is the letter of Venus and Ki means Serpent Life Force and King. And the world support the mulahara in Sanskrit. The spinal column. Venus is the serpent deity from the east to west. And is called Lucifer in Latin. Loki is shown in the west as the serpent of fire wrapped around the sacred tree. This is the symbol of enlightenment to the ancient Druids. The deity by the title Laki or Lake is called Shaitana by the ancient Vedic Persians. And the Persian Yezidhi's still call their God Shaitan. Whom they state is Murugan in Hinduism the ancient Venus who is the ancient form of Shiva and is called Sanat Kumara. Sanat is the Sanatana Dharma the ancient name of spiritual knowledge. Sanat Kumara is stated to be Venus as well. Sanat meaning Eternal. Satan means Eternal in ancient Sanskrit. Its the ancient name of the head God in Sanskrit.

The sixth rune Kana is the ancient name of Krisna. The ancient Aryans migrated from the East into Europe over thousands of years.

The Edda's were written down by a Christian monk who admitted he altered them. This was also done after centuries of Christianization. The images found across the North show Loki as a God in a positive sense. The Liberator of the soul as the personification of the serpent power. In the east the same God is stated to be the liberator of the soul to the Light Body state.

Loki does not destroy the nadi's this is symbolic of the serpent power purifying the soul.

**StraitShot47 wrote:**What happens when loki destroys the naddihs? Does it induce the next cycle?

That's the weird thing with sprockets the guy is promoting the ideology of a Catholic gnostic who included some pagan elements with Christ ideology with some Buddhism aspects then sprockets added in his own drug imagined ideas. And people believe this is Paganism. This shows if a person does not actually deprogram themselves from Christianity they will just unconsciously create another variation of it in their own life due to unconscious bias.
